

INDEX

Persons and Place-Names

Personal names are entered in full as in the relevant text except for a few entries which have been consolidated. As personal names are not modernised in some of the text there can be more than one entry for the same person as Robert for example, can appear as Robt., Robertus, Robert, with or without 'de' and the spelling of the surname can also vary. This occurs particularly in the two rentals for the abbey, **471** and **484**, where the full first name is given in **471** but is abbreviated in **484**. The entries in these two rentals are indicated by 't' after the name. Witnesses to deeds and charters are indicated by a 'w' after the entry number, eg. 62w.

Place-names have been modernised where possible with the variable spellings found in the text in brackets. Numbers in **bold** are page numbers in the chapter, Founder, Patrons and the Move to Shap.
